## LEVY UK & IRELAND FOOD

Levy UK + Ireland work with selected partners and suppliers to reduce emissions and food waste across their supply chain. With their help, Levy UK + Ireland can continually create eco-friendly dishes for conferences and celebrations at Bramall Lane.

Food significantly impacts global emissions, with our worldwide food system contributing 30% of greenhouse gas emissions. Because of this alarming statistic, Levy UK + Ireland is at the forefront of sustainable food practices, serving up locally sourced, plant-forward and seasonal menus – something we call our 'recipe for change'.

Come and enjoy the food from our Head Chef, Seymour Millington MCGB, Master CGC (Master Chefs of Great Britain, Master Craftsman of the Craft Guild) for any occasion!
